1. INTRODUCTION

Working Together to Safeguard Children 2018 no longer stipulates a requirement for training oversight by Local Safeguarding Children Boards (LSCBs). The *Working Together* Transitional guidance, however, expresses the following for the duration of the transition period

2.1 Guidance to LSCBs - General - LSCBs must continue to carry out all of their statutory functions, including commissioning SCR's where the criteria are met, until the point at which safeguarding partner arrangements begin to operate in a local area. They must also continue to ensure that the review of each death of a child normally resident in the LSCB area, is undertaken by the established child death overview panel (CDOP), until the point at which new child death review partner arrangements are in place. At the latest the new safeguarding and child death review arrangements must be in place by 29 September 2019.

Before safeguarding partner arrangements begin to operate in a local area, LSCBs should plan how and when to hand over all relevant data and information they hold to the safeguarding partners.

"In addition to the guidance set out in this document, therefore, LSCBs should, while they continue to operate, continue to refer to *Working Together 2015*: chapter 3; chapter 4 (disregarding redundant references to notifiable incidents and the former national panel of independent experts on SCR's); and chapter 5. 3. LSCBs may, however, continue certain functions beyond this point, in line with the grace periods detailed in this guidance.,

[\(Working Together Transitional Guidance 2018\)](#)

The Local Authority and LSCB will therefore have to renegotiate the previous functions of LSCBs under Regulation 5 1(a)(ii) in relation to:

- *the training of persons who work with children or in services affecting the safety and welfare of children* (pg. 59)
- *the monitoring and evaluation of the effectiveness of training, including multi- agency training, to safeguard and promote the welfare of children.* (Chapter 3.2, pg. 60).

Working Together to Safeguard Children 2018 does not, however, offer any further guidance in relation to training.

In 2011 the London Safeguarding Children Board adopted 'Competence Still Matters' as guidance to London boroughs in respect of the training and development of staff and volunteers to enable them to effectively safeguard and promote the welfare of children.

In the absence of government guidance, and after consideration of the 'Competence Still Matters document', it is recommended that this guidance be adapted and used to structure and plan the provision of multi-agency training in Suffolk.

The audience to be captured in the document include all those who work with Children and Young People in Suffolk. It includes volunteers working in the statutory, voluntary, community and independent sectors.

2. ORGANISATIONAL RESPONSIBILITIES

Working Together to Safeguard Children 2018 (Chapter 2.3) Places duties on a range of organisations, agencies and individuals to ensure their functions, and any services that they contract out to others, are discharged having regard to the need to safeguard and promote the welfare of children. This includes the use of appropriate supervision and support for staff, including undertaking safeguarding training.

3. STATUS AND PURPOSE OF THIS DOCUMENT

This document is designed to assist employers, voluntary organisations and LSCBs to meet the minimum requirements for the provision of safeguarding children training as well as provide guidance for employees on training requirements and provision.

It is designed to provide a framework for single and multi-agency training to enable professionals and volunteers working across different organisations to acquire the skills and knowledge to work effectively within existing guidance and procedures for safeguarding children. It promotes consistency across the County for the delivery of such training whilst allowing for the degree of flexibility required to meet locally identified needs.

Whilst the implementation of this document is not mandatory, it represents a standard of good practice and will help the Local Authority and its partner organisations fulfil their responsibilities under Regulations 5(a)(ii) as outlined in chapter 3 of 'Working Together to Safeguard Children' (2013).

Suffolk LSCB does not deliver Safeguarding training. This is the responsibility of the Suffolk Workforce Development Team. They can be contacted at admin.wfd@suffolk.gov.uk, or for Early Years and Childcare training, eyc.wfd@suffolk.gov.uk

Schools and colleges can access DSL and T4T safeguarding training through Schools Choice. More information is available on the [Training page](#) of the LSCB website.

Further information on all training courses available through CYP Workforce Development can be accessed via the following link www.suffolkcpd.co.uk. A range of information and learning resources can also be found on Suffolk Learning: [Suffolk Learning pages](#)

QUALITY ASSURANCE AND ENDORSEMENT OF SAFEGUARDING TRAINING

Safeguarding training is quality assured by the LSCB Professional Advisor, who can be contacted by email at LSCBCommunication@suffolk.gov.uk

SUFFOLK LSCB SAFEGUARDING CHILDREN ONLINE TRAINING COURSES – ME LEARNING

Whilst the LSCB advocates 'face-to-face' training, it recognises that this is not always possible or necessary. To support our partners the LSCB is able to offer basic introduction level e- Learning Safeguarding Children courses which are designed to ensure staff can recognise potential signs of abuse or neglect and know what they should do. The course takes 2-3 hours to complete. All courses are accessed by delegates logging on to the ME Learning portal. A certificate is automatically generated upon passing the test which can then be printed and used as evidence of learning.

To access the ME Learning portal, you will need to send an email with your name, job title and location to elearning@suffolkscb.org.uk . You will then be emailed a link to the system with an ID and password.

Please note - this system is not intended to replace 'face-to-face' training for social workers, childminders or staff who attend child protection conferences; it to build on foundation learning and Introduction to Safeguarding only.

The Suffolk County Council corporate learning and development team provide a range of training opportunities which would be suitable for staff up to groups 5 and 6. While this is mainly offered to Suffolk County Council staff, other organisations may be able to access this by arrangement.

4. MULTI-AGENCY FOCUS

The training framework supports one of the primary duties of the Children Act (2004): to ensure local authorities and key agencies work together to improve outcomes for children.

In the context of learning skills and developing knowledge to safeguard children and promote their well-being, working together can be translated as multi-agency learning and development.

The table below groups audiences together based on their degree of contact with children and/or parents/carers and their levels of responsibility. There are six groups:

GROUP NO.	DESCRIPTION	EXAMPLE, NOT AN EXTENSIVE LIST
Group 1	Staff in infrequent contact with children, young people and/or parents/carers who may become aware of possible abuse or neglect.	Maintenance staff.
Group 2	Those in regular contact or have a period of intense but irregular contact, with children, young people and/or parents/carers who may be in a position to identify concerns about maltreatment, including those that may arise from the use of an Early Help Assessment.	Receptionists in GP practice, librarian in children's library, assessment co-ordinators.
Group 3	Members of the workforce who work predominantly with children, young people and/or their parents/carers and who could potentially contribute to assessing, planning, intervening and reviewing the needs of a child and parenting capacity where there are safeguarding concerns.	Paediatricians, those working in the early years sector, residential staff, midwives, occupational Therapists, family support practitioners, Youth Support Workers, Early Help Staff, sexual health staff, teachers, probation staff, sports club welfare officers, those working with Adults in, for example, learning disability, mental health, alcohol and drug misuse services, those working in community play schemes. Some of these professionals might meet the Group 4 responsibilities and will therefore sit in Group 4.
Group 4	Members of the workforce who have particular responsibilities in relation to undertaking section 47 enquiries , including professionals from Health, Early Help, Education, Police and Children's Social Care; those who work with complex cases under CAF and social work staff. Professional advisors named and designated lead professionals.	Early Help practitioners, school nurses, health visitors, with high complex cases, or joint working with Social Care. Statutory Social Worker, Paediatricians undertaking CP medicals, Police officers in Vulnerable Persons teams, Police officers undertaking ABEs involving children. Named nurses, designated Safeguarding Leads, LAC Nurses and Designated Safeguarding Nurses.

Group 5	Operational managers at all levels including: practice supervisors ; front line managers and managers of child protection units.	Those who manage staff in Group 2, 3 or 4.
Group 6	Senior managers responsible for the strategic management of Services; NHS board members. Members of the LSCB.	Board Partners, subgroup members.
<p>*N. B these are illustrative examples, not an exhaustive list. ** the intercollegiate health document links to our training framework. Intercollegiate Safeguarding Children and Young People: Roles and Competencies for Healthcare Staff 2019</p>		

The framework described in this document outlines both suggested training content and training methods for each group, together with the responsibilities of employers, LSCB, Children’s Trusts, voluntary, private organisations and other partner agencies in ensuring appropriate training delivery to the respective groups.

The framework is designed to support employers and commissioners to ensure that staff and volunteers working with children and young people have access to appropriate training whether provided through the Suffolk County Council Workforce Development Team, Suffolk County Council Early Years and Childcare Team, via LSCB ME Learning, through Schools’ Choice for Schools, DSL and T4T training or Community Action Suffolk for Charities and volunteers.

The focus should be on the outcomes indicated against the content for each of the six groups. Employers should ensure that specific or specialist topics are covered (for example, impact of parental mental health, domestic violence, substance misuse, sexual exploitation).

Training programmes should be continually revised to include LSCB priorities, lessons from local reviews, national SCRs, research and other inquiries.

This document provides information about the multi-agency training that is available through the Suffolk LSCB and through Suffolk County Council’s Workforce Development Team. The scope of “Partner -agency” refers to organisations who work actively alongside the Local Authority to safeguard children and young people, for example our Health and Police partners, our District and Borough Councils and other organisations who we may have partnership agreements with.

Where “Multi-agency” refers to all other organisations in Suffolk working with children and young people.

Multi-agency training may be fully or partially subsidised, and it is important to check the course information carefully to see if any course fees apply.

It remains the responsibility of all organisations to ensure their staff (and volunteers) have the appropriate training to meet the safeguarding competencies required for their job role.

5. TRAINING REQUIREMENTS FOR EACH GROUP

Each group of staff (outlined in the table above) will be required to undergo training related to their own roles and levels of responsibilities. The training framework works on the basis of building competencies. For example, professionals in Group 2, should complete Group 1 courses before applying for Group 2 courses.

As a general premise, there is a baseline recommendation to access the online ME Learning endorsed by the LSCB before signing up to face to face training. These online modules will cover most, if not all, competencies as described for group 1 and 2 and form an excellent baseline for the other groups. [Suffolk LSCB endorsed ME Learning](#)

However, there will be stand-alone courses that can be attended after the minimum level of training at group 2 and above.

As per the organisational responsibilities, it is the duty of each organisation, agency and individual to ensure their staff receive and use the correct level of supervision, support and safeguarding training. We therefore recommend that those described within have an appointed safeguarding lead who can bring learning back to their own workforce, disseminate knowledge and skills and organise opportunities for continued learning.
